## PROJECTS / OPEN-SOURCE

**LOCKE & KEY  | LINK**                              JavaScript, React JS, MongoDB, HTML/CSS

- Locke & Key is a password manager **MERN**  website to store new password securely, show all your saved passwords, also generates extremely strong passwords.

**VEHICLE ROUTING PROBLEM WITH PRIVATE FLEET AND COMMON CARRIER  | LINK**          C++

- The vehicle-routing problem with private fleet and common carrier (VRPPC) is a variant of the VRP in which customers can be subcontracted at a customer-dependent cost if the privately-owned capacity is insufficient to serve all customers, or if doing so is beneficial from a cost point of view.

**CODEPEN CLONE  | LINK**                                 React JS, HTML, CSS, JavaScript

- I have created this Codepen Clone Website using React JS.

**GOOGLE KEEP CLONE APP  | LINK**                                  Flutter, Firebase

- With this project I wanted to develop a Google Keep Note App clone using Flutter and Firebase.
- This app has been developed for both Android and iOS.
- Simple and Clean user interface, easy to use.

**TIC TAC TOE  | LINK**                                   React JS, HTML, CSS, JavaScript

- Tic Tac Toe game is very famous among us, it doesn't need much explanation I guess.

**BANK MANAGEMENT SYSTEM (ATM)  | LINK**                                          Java

- This App has Signin/ Signup functionality for the bank along with Money Deposit, Withdrawl, Mini Statement etc.

### IRCTC CLONE MERN | Link                    JavaScript, React JS, MongoDB, HTML/CSS

- IRCTC MERN Clone website allows users to create account, login, book tickets, see all tickets etc. This is a full-stack (**MERN** ) website.

### KATHA (CHAT APP) | Link                                       Flutter, Firebase

- This is a chatting app developed using flutter and firebase
- Real time messaging, push notification, text and images etc

### MERN BLOG | Link                          JavaScript, React JS, MongoDB, HTML/CSS

- This is full-stack blog website using MERN with sign up & sign in authorisation

### NETFLIX UI CLONE | Link                            React JS, HTML, CSS, JavaScript

- I have created this Netflix clone website just for learning purpose.

### GOOGLE KEEP CLONE WEBSITE | Link                     React JS, Firebase, Tailwind

- With this project I was aiming to create a exact copy of Google Keep.

### QUIZZ-BUZZ | Link                                  React JS, HTML, CSS, JavaScript

- A quiz website developed using React JS.

### PERSONAL PORTFOLIO | Link                    Next JS, React JS, HTML, CSS, JavaScript

- This is my personal portfolio build using Next JS.

### CALCULATOR WITH DARK MODE | Link                            HTML, CSS, JavaScript

- Calculator website build using HTML, CSS, JavaScript which has feature like dark mode.

### AMAZKART APP | Link                                            Flutter, Firebase

- With this project I was aiming to create a E-Commerce website using Flutter and Firebase.

### INDIAN COVID-19 DASHBOARD | Link                    React JS, HTML, CSS, JavaScript

- Indian covid-19 dashboard using React JS.

### COURSE PRO | Link                                  JavaScript, React JS, HTML, CSS

- E-learning website using React JS.

### KNOWLEDGE BHANDAR | Link                                       Flutter, Firebase

- Knowledge Bhandar is a General Knowledge App developed using Flutter and Firebase

### IMAGE GALLERY | Link                                JavaScript, React JS, HTML, CSS

- Developed using React JS.

### PRO CALCULATOR APP | Link                                               Flutter

- Pro Calculator app for Android & iOS using Flutter.

## CERTIFICATIONS

- The Full Stack Web Development - MERN Stack - Udemy
